

Diaphragm safety valve MSS

Benefits

- For protect protection of solar thermal systems against overpressure
- For water, water mixtures with Antifrogen or Tyfocor and liquids of fluid groups 1 and 2

Versions

	Part no.
Diaphragm safety valve MSS G $\frac{1}{2}$ x G $\frac{3}{4}$	42330

Blue part no. = in-stock items

Description

For solar thermal systems to protect against overpressure. Suitable for water, water/Antifrogen mixtures, water/Tyfocor mixtures and liquids of fluid groups 1 and 2 (Pressure Equipment Directive, Art. 9).

Technical specifications

Opening pressure

6 bar

Connection

G $\frac{1}{2}$ x G $\frac{3}{4}$

Dimensions

W x H x D: 35 x 60 x 45 mm

Material

Housing: Brass (CW617N)

Cap: PA 6, black

Operating temperature range

Medium: -20/+160 °C

Heating capacity

Max. 50 kW
