

Heating pump assembly PrimoTherm® K 180-1 DN 32

Benefits

- Compact design
- Available with high energy efficiency pump class A
- Easy, fast mounting

Versions

Heating pump assembly PrimoTherm® K 180-1 DN 32	79501

Blue part no. = in-stock items

Technical specifications

Axis distance

125 mm

System connections

Boiler: G1¼ IG

Heating circuit: G1¼ IG

Operating temperature range

Medium: Max. 110 °C

System pressure

Max. 10 bar

Observe maximum pressure of circulation pumps used

Nominal size

DN 32

Flow coefficient Kvs

21 m³/h

Insulation

Polypropylene EPP

Dimensions

W x H x D: 248 x 480 x 170 mm
