

Gas Detector GSP1

Benefits

- Fast and reliable detection of flammable gases
- Sensor for a wide range of flammable gases (base calibration: methane)
- Sensor protection for long service life
- Flexible gas probe for use in spaces difficult to access
- Audible alarm if limit values are exceeded
- Adjustment of alarm threshold by means of a key and zero correction

Application

Detection of gas leaks (flammable gases) in gas pipes as well as connection pieces and fittings, gas meters, gas burners and gas tanks. Alarm: When a freely adjustable limit value is exceeded, the instrument activates an audible alarm. At the same time, the instrument generates an audible signal whose frequency is proportional to the gas concentration.

Versions

	DG	PG	Part no.
Gas Detector GSP1	H	4	561191

Blue part no. = in-stock items

Technical specifications

Measuring range (methane)
0/2,000 ppm

Sensitivity (methane)
20/50 ppm

Operating temperature range
Ambient: 5/40 °C
Storage: -5/+40 °C

Hours of operation
24 Stunden

Weight
360 g including battery

Dimensions
W x H x D: 72 x 130 x 26 mm
295 mm

Indicator
Diode chain, 20 diodes

Supply voltage
NiMH battery (5 V/1,600 mAh)
External power supply unit
